

**Shriram Veritech**, your partner in protecting your prestigious brand, is proud to announce its achievement of a new safety & security standard certification (**Hologram Safety & Security Management Systems (HSSMS)**) to safeguard the product and solutions being manufactured under its premise.

## What HSSMS achieves:

-  Eliminating any chance of pilferage during the production cycle to customer to zero.
-  Achieving 100% compliance with the applicable statutory, regulatory and customer requirements pertaining to product safety & security.
-  Reducing the identified risk levels to the tolerable limit as per business commitments of Veritech.
-  Reducing the incidents handling time pertaining to product safety & security to a minimum, ensuring quickest service

## Veritech has taken many steps to ensure that HSSMS guidelines are adhered to. Few examples of our steps:

-  **Clear Desk and Clear Screen** – To avoid sensitive data from being viewed inadvertently
-  **Vehicle Movement** – To ensure that external vehicles do not access secure areas
-  **Visitors Escort Policy** – To ensure that visitors cannot visit/view areas with sensitive data
-  **Network Access Control & email policy** – To view/control data accessed from laptops and PCs
-  **Scrap Management** – To ensure that scrap material is disposed in a secure and environment friendly way
-  **Complete CCTV coverage** – To ensure all activities are recorded for future references
